## LESSON TIPS FOR JUNE 14

- ⇒ Why is this lesson important?
  - How we think determines what we believe...
  - What we believe determines how we behave...
  - How we behave determines our destiny.
- ⇒ A catchy application for this lesson would be: Measure the messenger.
  - I will be suggesting some more as we go such as *Scripture over scrolling...people before pixels...worthy over worthless.*
- ⇒ Here are the instructions for an iPhone on how one can see how much they are using their phones:
  - Open “Settings” and scroll down to tap “Screen Time”
  - Immediately you will see your daily average for the week.
  - Then you can choose “See All App & Website Activity”
  - Scroll down to the section called “Pickups”
    - Here you can tap on a day and see the # of times you picked up your phone in one given day.
  - Scroll down and you will see the heading “Notifications” that shows how many were received in a given day.
- ⇒ Try to lead your people to do something specific this coming week in their use of technology.
  - An example for this lesson may be: Try to slow down before I begin scrolling and ask myself, “What is the message that this messenger is trying to communicate? Should I allow it to shape the way that I think?”
